2020 OPEN INFRASTRUCTURE SUMMIT
SPONSORSHIPS AT A GLANCE

The Open Infrastructure Summit will be going virtual, October 19 - 23, 2020.

The Open Infrastructure Summit is structured around relevant use cases, trainings and complementary open source projects including Airship, Ansible, Docker, Kata Containers, Kubernetes, OpenShift, OpenStack, StarlingX, Zuul and many more. Collaborate with people from more than 30 open source communities and meet the users, developers and vendors who are building and operating open infrastructure.

Registration for this event will be free and expected attendance is over 2,000 attendees from more than 50 different countries.
